

Post Foundation Leveling Sheetrock Repair

For home owners on the Underwood side of the complex:

If you are experiencing post foundation leveling sheetrock separation or buckling please contact Tally by August 15th.

We are compiling a list of units that need sheetrock repair or replacement. Please send:

- Your name and unit #
- Contact information for inspections prior to repairs
- Photos of cracks or buckling

Repairs will be done on a “greatest need” basis. We will start in the individual units, then move on to repair the common areas.

Repairs will begin the end of August. Please arrange for access to your unit either by leaving a key in the office or by being present at the time of repair. If a homeowner is not available on the assigned day, they will be moved to the bottom of the list.

Kindly,
The Brentwood Board

**The Braeswood repairs will begin in November.
